

2010-2-PIB-8 Addressable Fire Panel Accessory - Peripherals Interface Board 8 Inputs

Overview

The 2010-2-PIB-8I Peripherals Interface Board is an accessory of the small to medium size intelligent addressable life safety control systems. In total there are 4 variants of this board. The 2010-2-PIB-8I is a reduced variant of the 2010-2-PIB and is perfect if your only looking for having additional supervised inputs to interface other electronic equipment on site.

Functionality

The 2010-2-PIB-8I Peripherals Interface Board provides eight inputs for compatible control panels. Inputs and outputs are supervised for short circuit and open circuit faults.

Mounting & Connections

The board can be plugged directly on the front of the main board inside the big size control panel variants on top of the new release 3 chassis. No additional wiring is required. You can use the pluggable connectors to make your connections to the field wiring. Connect an external power supply to the board directly to reduce the load of your system.

Details

- 8 supervised inputs
- Pluggable connectors

2010-2-PIB-8I

Addressable Fire Panel Accessory - Peripherals Interface Board 8 Inputs

Technical specifications

Power supply type	VDC
Operating voltage	24 VDC
Physical	
Physical dimensions	105 x 192 mm (W x H)
Net weight	
Shipping weight	105 g 240 g
Mounting type	In cabinet
Environmental	15 to 140%C
Operating temperature	+5 to +40°C
Storage temperature	-20 to +50°C
Relative humidity	10 to 95% noncondensing
Standards & regula	
Certification	EN54-2, EN54-13
Standards 	EN54-2
	EN54-13
	CPD WEEE
	RoHS
Current supply	40 mA max.
Standby	40 mA max.
Input activation	
Open circuit	>20.2 kOhm
Quiescent	15 kOhm
Activated Short circuit	60.2 Ohm to 8 kOhm <60.2 Ohm
	SUUL UIIII
End-of-line termina	ition
Input (typical)	tion EOL 15 kOhm, 1/4 W resistor nent
Input (typical) Operating environr	EOL 15 kOhm, 1/4 W resistor
Input (typical) Operating environr Operating temperature	tion EOL 15 kOhm, 1/4 W resistor nent
Input (typical) Operating environr Operating temperature Storage temperature	EOL 15 kOhm, 1/4 W resistor ment -5 to +40°C
Input (typical) Operating environr Operating temperature Storage temperature Relative humidity	EOL 15 kOhm, 1/4 W resistor ment -5 to +40°C -20 to +50°C
End-of-line termina Input (typical) Operating environr Operating temperature Storage temperature Relative humidity Weight	EOL 15 kOhm, 1/4 W resistor ment -5 to +40°C -20 to +50°C
Input (typical) Operating environr Operating temperature Storage temperature Relative humidity	attion EOL 15 kOhm, 1/4 W resistor ment -5 to +40°C -20 to +50°C 10 to 95% (noncondensing) 105 g
