CBC GROUP

GANZ

The performance features at a glance

- Up to 400°/sec for preset

- WDR

- IP66 (-XT-Version)

- Mechanichal Day-/Nightswitching

- 650 TVL

- 36x optical zoom

- 3,6mm - 120mm

High versatility

The high-speed dome ZC-PT236P(-XT) is part of the trusted ZC-PT series and comes in two popular models, one for indoor use and one for outdoor use (-XT).

Outstanding advantages

Continuous improvements down to the very last detail make the ZC-PT dome series a reliable partner. With a 36-fold optical zoom, it can be used in a wide range of different areas.

High-performance technology

A swivelling speed of 400° per second and up to 256 programmable presets ensure that images are captured very quickly.
Furthermore, the ZC-PT236P(-XT) has a 3.6mm - 120mm lens.

Other special features

Using the intuitive, multilingual OSD menu a range of additional functions can be set if required. In addition to private zone masking, this also includes WDR and motion detection.
Many functions such as the focus or aperture control can also be operated manually.
